If damages shall be claimed for the use of such lands, and the parties can not agree as to the amount of compensation to be paid, they may proceed in the manner now provided by law for railroad companies to procure right of way. Assessment of damages.

SEC. 28. *Inspections of watersheds.*

Any waterworks that derive their water from a surface supply shall have a quarterly sanitary inspection of the entire watershed, except in those cases where the supply is taken from large creeks or rivers that have a minimum daily flow of ten million gallons, in which case the inspection shall apply to the fifteen miles of watershed above the waterworks intake. Such water companies shall cause to be made a sanitary inspection of any particular locality on said watershed at least once in every week, whenever in the opinion of the board of health of the city or town to which the water is supplied, or, when there is no such local board of health, in the opinion of the county superintendent of health or in the opinion of the State Board of Health, there is special reason to apprehend the infection of the water from that particular locality by the germs of typhoid fever or cholera. The inspection of the entire watershed as herein provided for shall include a particular examination of the premises of every inhabited house on the watershed, and, in passing from house to house, a general inspection for dead bodies of animals or accumulation of filth. It is not intended that the term "entire watershed" shall include uninhabited fields and wooded tracts that are free from suspicion. The inspection shall be made by an employee of and at the expense of said water company in accordance with reasonable instructions as to methods, scope, and details, to be furnished by the Secretary of the State Board of Health. The said sanitary inspector shall give in person to the head of each household on said watershed or, in his absence, to some member of said household, the necessary directions for the proper sanitary care of his premises. It shall further be the duty of said inspector to deliver to each family residing on the watershed such literature on pertinent sanitary subjects as may be supplied him by the municipal health officer or by the Secretary of the State Board of Health. Full report in duplicate of all such inspections shall be made Inspections of watersheds.
